

Stratodesk NoTouch OS

The Ultimate Remedy for All Your Healthcare Endpoint Security Challenges

Optimize clinical efficiency and security with Stratodesk's Ultra-Secure Endpoint OS and Citrix

Stratodesk delivers a cutting-edge, ultra-secure endpoint operating system, empowering healthcare professionals with effortless and rapid access to their Citrix Workspace and a multitude of virtual/cloud environments.

Experience a premier, ultra-secure OS designed specifically for healthcare endpoints, employing a zero-trust approach.

Engineered to seamlessly integrate with Citrix and other VDI/DaaS solutions, as well as secure browsing, transforming the end-user experience on managed clinical endpoints.

Choose from flexible licensing options, including Perpetual and Subscription models, to align with your organization's needs.

Achieve significant savings in both CAPEX and OPEX through modern, easily scalable device management and hardware lifecycle extension strategies.

For decades, Citrix and Stratodesk have been working together to solve common obstacles in healthcare IT. Stratodesk NoTouch OS is the ultimate solution for the clinical endpoint.

Together with Citrix Workspace, we provide a VDI and DaaS solution that allows healthcare professionals to be more efficient and productive with an improved end-user experience.
